

## Lakeshore. Where trust and relationships matter most.

Recruiters at traditional staffing companies are motivated to “sell you” on their candidate so they can “make their metrics”. Compensation is based on quantity over quality.

Most recruiters want to serve the needs of their customers first, but often find it difficult under the typical business model.

Lakeshore’s network attracts the best and most experienced recruiters who focus on building trust and, above all, delivering results.

# Who can we help *YOU* find?
